

Bring Affordable, On-Demand Healthcare to Your Organization

Lead the Charge — Welcome to HealthRight *iCare*

Healthcare is changing rapidly. Show your members that you're helping to lead the charge. We created HealthRight *iCare* to meet the shared needs of patients, providers, and employers to improve outcomes and reduce costs.

HealthRight *iCare* delivers convenient and affordable access to quality healthcare. Plus, with our unique care coordination team and full-service program, care continues where other Telehealth providers leave off:

- **Care coordination** — licensed nurses available by phone 24x7 to guide patients, schedule appointments, review treatment plans, follow up, and provide continuing support
- Consult with **board-certified doctors** for new symptoms or chronic conditions from the convenience of home or work
- **Therapeutic solutions** offering a continuum of care, including access to and savings on lab testing, imaging studies, local and mail order pharmacies, and wellness programs
- **Subscriptions** are priced per person/per household, per month

Why choose HealthRight?

HealthRight *iCare* is perfecting the practice of Telemedicine. With a supportive team of nurses, care continues beyond the consult itself, ensuring that your members get the follow-up care they need. See how HealthRight can provide affordable, convenient access to healthcare, saving your organization money and improving productivity, health, and satisfaction.

*Offer HealthRight *iCare* as a benefit, an add-on convenience, or a thank you and experience how it can change the way you and your organization think of healthcare.*
