

## Access, Care, and Support

### Speak With Board Certified Doctors & Licensed Nurses

#### 24x7 Nurse Advocate

With HealthRight iCare, you gain access to a supportive and comprehensive healthcare program. It starts with the nurse — available to you at no cost, day or night. HealthRight iCare licensed nurses answer your questions, provide guidance, connect you with a doctor, and can even communicate with your primary care doctor/specialist. Your care does not end with the doctor consultation: the nurse will continue to work with you, reviewing the doctor's treatment plan, coordinating next steps, and making sure you get the follow-up care you need.

#### TeleConsult

TeleConsults are convenient for when you want to speak directly with a doctor but don't want the hassle of making an appointment or paying a high co-pay. Facilitated by licensed Nurses, you can speak with a Board Certified Doctor licensed in your state, within an hour, whether day or night. Unlimited TeleConsults are included in your HealthRight iCare subscription and there is no time limit to speak with a doctor. Through the TeleConsult, the doctor may make a diagnosis and provide a treatment plan that can include prescriptions, lab testing, imaging studies, or follow up.

*These valuable services offer your members convenience and savings and help them make the most of their HealthRight iCare membership.*
